CBHS Fall Re-Opening: PAG August 2020
How We Got Here?

- District Summer Task Forces
- Supt’s Proposal
- CBHS Task Forces/Groups
Long-Term School Target for 20-21

We will co-create a more just, equitable, kind community which maximizes learning and growth for all and which catalyzes excellent work that betters our community and world.
Long-Term Faculty Target for 20-21

We will comprehensively narrow the opportunity gap for CBHS students, especially for our students of color and economically disadvantaged students.

FAQs:
HEALTH & SAFETY PROTOCOLS

Q: What are some of the new protocols and precautions that will be taken to reduce risk of COVID-19 infection and transmission?

A: The CDC has highlighted specific mitigation strategies to reduce risk of COVID-19 infection and transmission. PPS will adhere to the following enhanced protocols and precautions:

**Face Covering & Social Distancing**
- A face covering includes: non-medical-grade disposable face masks, cloth face coverings (over the nose and mouth), or full-face shields to protect the eyes, nose, and mouth.
- Students are encouraged to bring their own masks, but PPS will provide face coverings for all students, as needed.
- PPS will provide face coverings for all staff members.
- At this time, for whom it is developmentally appropriate, all staff, students, and visitors must wear a face covering in all PPS facilities and on school buses.
- Please ensure your child's mask is labeled and be sure to discuss the importance of not sharing masks with others.
- At school, students and staff will be encouraged to practice physical distancing, keeping a minimum of 6 feet of distance from others whenever possible.
- Some classrooms may have had furniture removed or rearranged to accommodate for physical distancing.
- Plexiglass barriers have been installed for staff members who interact with the public on a more frequent basis such as school offices, cafeteria spaces and counseling/school psychologist offices. The barriers are also being installed in classrooms as needed.
- Schools are opening in hybrid mode to reduce the number of students present at the start of the school year.
- School days have been shortened to reduce prolonged exposure.
- Staff meetings and conferences are being moved online to reduce prolonged exposure.

**Sanitation & Prevention:**
- Students and visitors are asked to sanitize hands when entering the building, entering and/or exiting a classroom space.
- Special attention is being placed to disinfect high-touch points including doorknobs, countertops, handrails, light switches, restroom fixtures, desks, phones, etc.
- Restrooms, communal spaces, front desk and lobby areas will be cleaned with increased frequency.
- Some spaces not commonly used for classrooms may be utilized to allow for 6 feet of separation including cafeterias, gym spaces, and other classrooms.
- Outdoor spaces will be utilized as frequently as possible within the instructional day.
- Signage has been strategically placed throughout buildings to remind individuals of good hand hygiene, proper hand washing and symptoms of COVID-19.
- The number and location of sanitation stations (hand sanitizer) has been increased throughout buildings and classrooms. Every classroom will have either a sink or a hand sanitizing station.
- Increased air ventilation and circulation of outside air into buildings through HVAC systems.
- Enhanced ventilation systems with ionizing units and UV light fixtures where appropriate.
- Daily and weekly cleaning protocols utilizing EPA registered chemicals for disinfection.
